*Canada Border Services Agency (CBSA) was created in 2003. Prior to that, all immigration functions, including immigration enforcement was done by Citizenship and immigration Canada (CIC) - currently IRCC. As such, all statistics and reports for Removal Order issuance would fall under CIC. Due to system limitations and office mapping, reports cannot be generated to extract only those removal orders that were produced by the enforcement branch of CIC (what is now CBSA) apart from other removal orders issued by CIC prior to 2003, an example seview of all offices codes and mapping would need to be undertaken. Given the volumes of cases (approximately 40,900 per year), significant resources would be required to undertake this review.

^{*}Canada Border Services Agency (CBSA) was created in 2003. Prior to fast, all immigration functions, including immigration anforcement was done by Citizenship and immigration Canada (CIC) - currently IRCC. As such, all statistics and reports for Removal Order issuance would fall impler CIC. Due to system limitations and office mapping, reports cornect be generated to extract only those removal orders that were produced by the enforcement branch of CIC (prior to 2003). In order to identify removal orders issued by the enforcement branch of CIC (what is now CBSA) apair from other removal orders issued by CIC prior to 2003, a manual review of all offices codes and mapping would need to be undertaken. Given the volumes of cases (approximately 40,000 per year), significant resources would be required to undertake this review.

Source: CIC DWS - Business Reporting - Exemination Datamarts

Created by: AG-PRU

Date: July 12, 2017

^{*}Canada Border Services Agency (CBSA) was created in 2003. Prior to that, all immigration functions, including immigration enforcement was done by Citizenship and immigration Canada (CIC) - currently IRCC. As such, all statistics and reports for Removal Order issuance would fall under CIC. Due to system limitations and office mapping, reports cannot be generated to extract only those removal orders that were produced by the enforcement branch of CIC (prior to 2003), in order to identify removal orders issued by the enforcement branch of CIC (what is now CBSA) apart from other removal orders issued by CIC prior to 2003, a manual review of all offices codes and mapping would need to be undertaken. Given the volumes of cases (approximately 40,000 per year), significant resources would be required to undertake this review.

Canada Borde Services Agen Agence des services frontaliers du Canada

Source: CIC DWS - Business Reporting - Examination Datamarks

Created by: AG-PRU Date: July 12, 2017

*Canada Border Services Agency (CBSA) was created in 2003. Prior to that, all immigration functions, including immigration enforcement was done by Citizenship and Immigration Canada (CIC) - currently IRCC. As such, all statistics and reports for Removal Order issuance would fall under CIC. Due to system limitations and office mapping, reports cannot be generated to extract only those removal orders that were produced by the enforcement branch of CIC (prior to 2003). In order

INLAND ENFORCEMENT PARTNERSHIPS WITH LAW ENFORCEMENT

The ability to work in various types of operations to collect, use and/or provide information to, or by, partners contributes to Inland Enforcement's successes. Frequently, there is a need for integrated operations that bring together knowledge, resources and legislative authority of multiple agencies. Amongst the main benefits of working with our counterparts is building professional relationships, trust and a clear understanding of the mandates and authorities each partner brings to an operation and/or project.

Our capacity to offer support through a collaborative operation may differ from partner to partner, depending on the authorities, mandates and information sharing agreements given the particular situation. The following questions and scenarios attempt to illustrate Inland Enforcement's authorities and interactions within such operations or projects.

Overarching questions for consideration

1. What is the CBSA's authority to assist law enforcement partners for the purposes of conducting regulatory investigations and enforcement under IRPA?

The authority to participate and cooperate with partners is derived from the CBSA's mandate which is described in section 5 of the *Canada Border Services Agency Act*.

5. (1) The Agency is responsible for providing integrated border services that support national security and public safety priorities and facilitate the free flow of persons and goods, including animals and plants, that meet all requirements under the program legislation, by: (a) supporting the administration or enforcement, or both, as the case may be, of the program legislation;

The CBSA has the lawful authorized authority under IRPA to conduct immigration enforcement activities, including the powers of arrest, detention and removal.

2. What is the CBSA's authority to collect information from law enforcement partners for the purposes of conducting regulatory investigations and enforcement under IRPA?

The mandate contained in the CBSA Act provides the Agency with a legal authority to collect information. The Agency is not authorized to collect information if the sole purpose of the collection is not related to our mandate. For example, the Agency would not be legally authorized to collect information for the sole purpose of investigating criminal code offences or if that information was collected unlawfully. Information that is collected pursuant to the CBSA's legislated mandate may only be disclosed to law enforcement partners where authorized by the applicable legislation, such as the Privacy Act, the Access to Information Act, the Library and Archives of Canada Act, Customs Act and the Canadian Charter of Rights and Freedoms.

3. Can personal information collected pursuant to IRPA be disclosed under section 107 of the Customs Act?

No, only customs information can be disclosed under section 107 of the Customs Act. However, there may be provisions for disclosure of IRPA information under the Privacy Act.

4. What are the steps required by Inland Enforcement to participate in joint operations with law enforcement partners?

All requests for assistance by law enforcement partners to Inland Enforcement must be authorized by a manager to determine if the CBSA should undertake the joint initiative. Where a partnership will be an ongoing or regularly occurring operation, a formal acknowledgement of the Agency's commitment to this participation through a <u>Joint Forces Operations Agreement</u> is required to clearly set out the essential elements of the participation. For shorter term operations, the following are questions that should also be considered by the CBSA in the development of the partnerships.

- Does the proposed initiative support the CBSA's mandate and mission?
- Do the CBSA's authorities support the initiative?
- Does the provincial or federal authorities and mandates allow for the CBSA involvement in the initiative?

- Will the initiative enhance ongoing cooperation efforts between the CBSA and provinces, or other federal government partners?
- Will a senior official of the CBSA be accountable for the joint operation?
- Is the initiative appropriate now or should it be considered for a later date?
- Are the risks associated with the initiative acceptable and manageable?
- Are there costs associated with the activities related to the initiative; specifically, resource impacts?

For assistance with respect to any collaborative operation between Inland Enforcement and law enforcement partners, regional offices are encouraged to contact the Director of Inland Enforcement Operations and Case Management who may seek advice from Legal Services or other specific areas of the CBSA (Joint Forces Operations Coordinator, Information Sharing and Collaborative Agreements Section).

For special requests for assistance from law enforcement partners to assist with covert operations, such as deferring enforcement action, bringing witnesses to Canada to testify in court proceedings, authorization of an extension of status, or the issuance of a temporary resident permit, regional offices must refer such requests to the attention of the Director, Intelligence Operations and Analysis Division. The above information supersedes that contained in Enforcement Manual 7, Section 5.10 and will be updated accordingly.

5. Do I need a written agreement with the law enforcement partner to support or provide short-term assistance to an operation?

There are several written agreements and arrangements in force with other law enforcement partners in which the sharing of immigration information and the parameters of the relationship is referenced. The appropriate agreements or arrangements must be consulted in order to determine the information sharing requirements. For information on existing agreements, refer to the <u>Written Collaborative Agreement Inventory</u>.

In the absence of a specific written agreement with another law enforcement partner, the lawful authority to disclose personal information can be found in Section 8 of the *Privacy Act*. This applies to non-customs information. Although not a requirement for shorter term collaborative operations, it may be appropriate to establish a written agreement to benefit the operation in order to mitigate risks

and ensure that roles, responsibilities and information sharing requirements are clearly defined. For more information on the development of written agreements, see the <u>Policy and Guide for the Management and Development of WCAs</u>.

6. Is there a difference between partnerships with law enforcement partners mandated to enforce criminal versus regulatory offences?

Yes, all levels of government involved in criminal or regulatory enforcement have specific powers and authorities that are usually associated to their respective mandates. For instance, some partners meet the definition of "peace officer" as per s. 2 of the Criminal Code of Canada (CC) and as such are authorized to arrest and detain pursuant to sections 55(1) and 55(2) IRPA, while others may meet the "peace officer" designation, however, do not meet the CC definition of a peace officer and are thereby limited in their powers and authorities. Further, with respect to criminal enforcement agencies, there is a broader concern that regulatory enforcement powers may unintentionally be used for the purpose of criminal enforcement. These are a few of the reasons why it is important the roles and mandates of all agencies involved are carefully evaluated to determine if the CBSA should undertake such joint operations.

7. Can the CBSA accept a referral or information from a law enforcement partner for the purposes of regulatory enforcement under IRPA?

Yes, the CBSA may gather information that is lawfully collected and reported by a partner for the purpose of advancing regulatory enforcement under IRPA.

8. Should we be concerned with how law enforcement partners collected the information which forms the basis of the referral?

Yes, information that was illicitly collected or provided by a partner may also be unlawful if used by CBSA. If, during or after collecting information from partners there is concern with how the information was gathered by the partner, that information must be documented and reported to management.

- 9. Are there any concerns, if law enforcement partners collected information through the following ways:
 - a. Spontaneous admission by a foreign national that they are without status?
 - b. Information derived from law or regulatory enforcement partners' observations of people/items in plain view during the course of their duties exercising their own mandates?
 - c. Information derived from a search incidental to arrest under laws/regulations as part of a partner's mandate?

The above examples would be acceptable situations where the CBSA may accept information when lawfully shared by a partner, in either, criminal or regulatory enforcement. Since the information was presumably collected lawfully, it is being shared for the purpose of administering the CBSA mandate and you have the legal authority to collect that information.

10. Is there a difference between a JFO where there is a potential of executing a warrant vs investigating a violations of IRPA?

The existence of an immigration warrant or likelihood of locating individuals subject to IPRA enforcement, in and of itself, does not alter the ability to accept referrals or work jointly with enforcement partners. The decision to participate or provide assistance will be based on the mandate and legal authorities of the partner agencies and the CBSA.

Scenarios and Considerations for CBSA Capacity to Assist

1. A provincial law enforcement agency encountered a subject who states that he is in violation of IRPA and wanted by the CBSA. Are we authorized to collect this information?

Since the information collected is for the purpose of administering the CBSA mandate, the Agency has the legal authority to collect that information. As the purpose of the investigation would relate to the administration of the IRPA, the information collected by the Agency is defined as "Personal Information" as described in the *Privacy Act* and should be handled and managed accordingly.

Does anything change if the partner was a regulatory enforcement agency?

Some regulatory partners may not be able to share information due to confidentiality rules. If a disclosure to the CBSA is unlawful, the CBSA's use of that information may also be unlawful. Therefore, disclosures by law enforcement partners must be evaluated for completeness and credibility prior to enforcement actions by Inland Enforcement.

2. The CBSA is investigating a foreign national who is believed to be inadmissible to Canada and suspected of accessing provincial services. Can the CBSA contact the provincial service provider for information or verification?

This would depend if the disclosure of personal information to the provincial service provider is authorized by the provisions listed in section 8 of the *Privacy Act*. For more information, refer to the <u>Policy on the Disclosure of Personal Information: Section 8 of the *Privacy Act* and <u>Operational Guidelines — Disclosure of Information for Enforcement and Intelligence.</u> Among other considerations prior to sharing information, officers will always need to evaluate the subsequent use of the disclosure. For example, in cases of refugee claimants, the disclosure of personal information may compromise the safety and security of the claimants or put them or their family in danger or at risk of persecution or torture, or may even create "sur place" refugees.</u>

3. Provincial Labour Officials are planning to conduct inspections at a number of construction sites in and around a particular city. They request the assistance of the CBSA to attend in the event suspected undocumented workers are encountered on site during the course of their investigation. Are there any concerns with respect to the CBSA participating in this project?

There are some red flags in this scenario as Provincial Labour Officials may not have the lawful authority to invite the CBSA to participate in inspections particularly when the CBSA would not be providing expertise directly related to the regulatory function being performed. Moreover, Labour Officials almost always have the authority to enter workplaces for the purposes of enforcing their own legislation, however, this does not render the CBSA's entry lawful. Generally, the CBSA must rely on its own independent authority to enter any premises. Therefore, the roles, mandates and lawful authorities of all agencies involved should be clearly outlined well in advance of such operations.

What is the recommended course of action?

The CBSA may want to provide support by attending a nearby location to shorten the response time to any referral. When responding, the CBSA must enter the premises under its own lawful authorities.

4. Provincial regulatory authorities are planning a highway traffic stop to verify registration for all commercial vehicles passing through a particular stretch of highway. Are there any concerns with respect to the CBSA participating in this operation?

The CBSA does not have the legal authority to conduct roadside stops of commercial vehicles on any highways within Canada to enforce IRPA nor should the Agency obtain that authority indirectly through the powers legislated to provincial partners.

What degree of participation can CBSA offer?

The CBSA may participate in such operations by attending in close proximity to the location to shorten the time and distance when responding to any lawful referrals. The exception is where a provincial agency does not have the lawful authority to make the referral as some provincial information sharing laws requires enforcement information to remain confidential. Although the consequences of that action may largely fall with the provincial agency, liabilities may also ensue for the CBSA.

5. A law enforcement partner agency is conducting ID checks to ensure compliance with age restrictions in licensed establishments, an area where large numbers of foreign nationals with non-Canadian IDs have been encountered previously. As they are not familiar with non-Canadian IDs, they request that CBSA attend to assist with assessing these documents and compliance with IRPA. What is the best response to this request and if we did attend, under what circumstances would CBSA officers investigate possible IRPA violations?

The CBSA may want to maintain a passive role in close proximity to the establishment until the partner agency initiates a referral. Prior to attending referrals, the CBSA should ensure they have the legal authority to enter the establishment which may include consent from the owner of the establishments,

acknowledge the CBSA's presence and noting that immigration enforcement might occur.

6. An international event is taking place in Canada (such as the Pan Am Games, G20, Olympics) resulting in increased security measures by law enforcement agencies to support national security and public safety portfolios. Can the CBSA conduct foot patrols alongside law enforcement partners, given the influx of foreign national in Canada for the event?

Prior to the CBSA's involvement, the regional office should consult with Inland Enforcement Operations and Case Management in the decision-making process to determine if the CBSA should undertake the initiative. While there is no legal restriction on CBSA officers conducting public "walking along" with their law enforcement counterparts, the roles, mandates and lawful authorities of all agencies involved should be clearly outlined well in advance of the event. The Agency needs to remain aware of the perception that could be portrayed with this practices and explore other alternatives where available

7. A police force intends to conduct multiple raids on residences for suspected criminal offences. They notify the CBSA of the addresses and individuals of interest. The addresses are known to the CBSA for previous IRPA enforcement and one of the individuals is wanted for removal. Can the CBSA disclose this information to the police force?

There are several areas in section 8(2) of the *Privacy Act* which allows the sharing of information, including proactive disclosures to partner agencies. Section 8(2)(a) could be used to share information with other federal agencies as the information could be deemed to have been collected for the purpose of enforcing federal laws and therefore would be used for a consistent purpose. Section 8(2)(f) may be used where an agreement exists for the sharing of information to police forces or investigative bodies for the purpose of administering or enforcing any law or carrying out a lawful investigation. For other circumstances in which personal information may be disclosed to some partners refer to the <u>Policy on the Disclosure of Personal Information: Section 8 of the Privacy Act</u> and <u>Operational Guidelines – Disclosure of Information for Enforcement and Intelligence.</u>

RE: Employer Compliance Verification Project - legislation

Hello Pat,

We have reviewed the scenario and the applicable legislation provided. A review of the INSTRUMENT OF DESIGNATION AND DELEGATIONs document show that the sections in question do not give the authority to Inland Enforcement to compel the employer to provide the information being sought. At this time the CBSA cannot enforce the regulations that you have provided. I have provided the link for the D&D document for your convenience.

We will work with our Programs counterparts and CIC as necessary to review whether the amendment of the D&D Instruments is appropriate given the scenario you outlined in your original message. Thank you for bringing this to our attention. Should there be any changes or updates on this situation we will advise you accordingly.

Regards,

David Kanuit

Subject: RE: Employer Compliance Verification Project - legislation

Hey David,

RE: CBSA Inland Enforcement Requesting Information from Employers (who employ FN's)

The goal of the CBSA Inland Enforcement (Winnipeg office) is to conduct compliance checks to ensure employers are complying with their obligations under the Act and Regulations. The responsibility of the employer under the IRPA Regulations is to ensure the FN employees are also complying. Under Part 11, Divisions 1 -5 of the IRPA Regulations it is clear that the burden of responsibility on compliance rests with the employer. This includes providing any and all information including those FN's employed by them. This compliments our Agency's mandate of program integrity and although not specifically mentioned it also may assists in protecting the security of Canadians (criminally inadmissible employees). We make these requests with an attempt to cause minimal disruption to the employer. Really, all we are asking for from the employer is a list of names and dates of birth of the foreign national they employ. The provisions under the regulations require the employer to provide a significantly more information than what we are asking for. Some of the requirements of the employer to provide information relates to the Department of Employment and Social Development but the majority of the requirements do not speak to a specific Agency or Department but rather just refers to an officer under the Act or Regulations. These compliance checks are a proactive approach to ensuring program integrity. It's unknown how many investigative files these compliance checks will generate however, any resource allocation to such a project can be revaluated to determine their value.

Incidentally, it's important to note our office has conducted numerous (currently and in the past) investigations on FN's who are or have been working for employers who employ FN's pursuant to the regulations we have identified in our rationale. A number of these investigations were investigations into serious criminality.

Pursuant to the IRPA Regulations, please provide an opinion on the validity of CBSA making such requests.

The following are the applicable and relevant sections under the IRPA Regulations:

IRPA Regulations

209.4(1) Conditions imposed on all employers

(a) must report at any specified time and place to answer questions and provide documents

- (b) must provide any documents that are required under 209.7 (examination of documents)
- (c) attend any inspection referred to in 209.8 and 209.9, unless the employer was not notified of it, give all reasonable assistance to the person conducting that inspection and provide that person with any document or information that the person requires.
- 209.5 The powers set out in sections 209.6 to 209.9 may be exercised in the following circumstances:
- (a) an officer or the Minister of Employment and Social Development has a reason to suspect that the employer is not complying or has not complied with any of the conditions set out in section 209.2 or 209.3;
- (b) the employer has not complied with the conditions set out in section 209.2 or 209.3 in the past; or
- (c) the employer is chosen as part of a random verification of compliance with the conditions set out in sections 209.2 and 209.3.
- 209.2 (1) An employer who has made an offer of employment to a foreign national referred to in subparagraph 200(1)(c) (ii.1) must comply with the following conditions:
 - (a) during the period of employment for which the work permit is issued to the foreign national,
 - (i) the employer must be actively engaged in the business in respect of which the offer of employment was made, unless the offer was made for employment as a live-in caregiver,
 - (ii) the employer must comply with the federal and provincial laws that regulate employment, and the recruiting of employees, in the province in which the foreign national works,
 - (iii) the employer must provide the foreign national with employment in the same occupation as that set out in the foreign national's offer of employment and with wages and working conditions that are substantially the same as but not less favourable than those set out in that offer, and
 - (iv) the employer must make reasonable efforts to provide a workplace that is free of abuse, within the meaning of paragraph 72.1(7)(a); and
 - (b) during a period of six years beginning on the first day of the period of employment for which the work permit is issued to the foreign national, the employer must
 - (i) be able to demonstrate that any information they provided under subparagraph 200(1)(c)(ii.1) or section 209.11 was accurate, and
 - (ii) retain any document that relates to compliance with the conditions set out in paragraph (a).
- (2) For the purposes of subsection (1), the period of employment for which the work permit is issued includes any period during which the foreign national may, under paragraph 186, work in Canada without a permit after the expiry of their work permit.
- (3) A failure to comply with any of the conditions set out in paragraph (1)(a) is justified if it results from any of the circumstances set out in subsection 203(1.1).
- (4) A failure to comply with either of the conditions set out in paragraph (1)(b) is justified if the employer made all reasonable efforts to comply with the condition.

- 209.3 (1) An employer who has made an offer of employment to a foreign national referred to in subparagraph **200(1)(c)(iii)** must comply with the following conditions:
- (a) during the period of employment for which the work permit is issued to the foreign national,
- (i) the employer must be actively engaged in the business in respect of which the offer of employment was made, unless the offer was made for employment as a live-in caregiver,
- (ii) the employer must comply with the federal and provincial laws that regulate employment, and the recruiting of employees, in the province in which the foreign national works,
- (iii) the employer, in the case of an employer who employs a foreign national as a live-in caregiver, must
- (A) ensure that the foreign national resides in a private household in Canada and provides child care, senior home support care or care of a disabled person in that household without supervision,
- (B) provide the foreign national with adequate furnished and private accommodations in the household, and
- (C) have sufficient financial resources to pay the foreign national the wages that were offered to the foreign national,
- (iv) the employer must provide the foreign national with employment in the same occupation as that set out in the foreign national's offer of employment and with wages and working conditions that are substantially the same as but not less favourable than those set out in that offer, and
- (v) the employer must make reasonable efforts to provide a workplace that is free of abuse, within the meaning of paragraph 72.1(7)(a);
- 209.8 (1) Subject to subsection (5), if any of the circumstances set out in section 209.5 exists, an officer may, for the purpose of verifying compliance with the conditions set out in section 209.2, enter and inspect any premises or place in which a foreign national referred to in that section performs work.

Marginal note:Powers on entry

- (2) The officer may, for that purpose,
- (a) ask the employer and any person employed by the employer any relevant questions:
- (b) require from the employer, for examination, any documents found in the premises or place;
- (c) use copying equipment in the premises or place, or require the employer to make copies of documents, and remove the copies for examination or, if it is not possible to make copies in the premises or place, remove the documents to make copies;
- (d) take photographs and make video or audio recordings:
- (e) examine anything in the premises or place;
- (f) require the employer to use any computer or other electronic device in the premises or place to allow the officer to examine any relevant document contained in or available to it; and
- (g) be accompanied or assisted in the premises or place by any person required by the officer.
- 200. (1)(c)(ii.1) Subject to subsections (2) and (3) and, in respect of a foreign national who makes an application for a work permit before entering Canada, subject to section 87.3 of the Act an officer shall issue a work permit to a foreign national if, following an examination, it is established that
- (ii.1) intends to perform work described in section 204 or 205 and has an offer of employment to perform that work or is described in section 207 and has an offer of employment, and an officer has determined, on the basis of any information provided on the officer's request by the employer making the offer and any other relevant information,
- (A) that the offer is genuine under subsection (5), and
- (B) that the employer
- (i) during the six-year period before the day on which the application for the work permit is received by the Department, provided each foreign national employed by the employer with employment in the same occupation as that set out in the foreign national's offer of employment and with wages and working conditions that were substantially the same as but not less favourable than those set out in that offer, or
- (II) is able to justify, under subsection 203(1.1), any failure to satisfy the criteria set out in subclause (I),
- 200. (1)(c)(iii) has been offered employment, and an officer has made a positive determination under paragraphs 203(1)(a) to (e);

English version *** La version française suit ***

Inland Enforcement - New Project Code in NCMS to Track Temporary Foreign Worker Cases

The Temporary Foreign Worker Program (TFWP) enables Canadian employers to hire foreign nationals on a temporary basis to fill short-term labour and skill shortages when qualified Canadian citizens or permanent residents are not available. Employment and Social Development Canada (ESDC) and Citizenship and Immigration Canada (CIC) are in the process of implementing reforms to the TFWP. The overhaul of the TFWP includes a general restructuring as well as changes to various work permit application procedures resulting in enhanced compliance and enforcement efforts that may have direct impacts for the CBSA's Inland Enforcement Program. This includes additional powers for ESDC and CIC described in sections 209 of the Immigration and Refugee Protection Regulations to, conduct warrantless on-site visits: compel employers to provide documents for the purposes of verifying their compliance; impose new conditions on employers; and ban employers in violation. These expanded authorities do not grant the CBSA any additional inspection powers. Please continue to refer to the Instrument of Designation and Delegation document in IL 3 for information on delegations of authority. For further information surrounding the changes, please refer to the TFWP.

To accurately report operational pressures such amendments will have on the Inland Enforcement Program, we have created a new Project Code in the National Case Management System (NCMS). We kindly request all regional inland enforcement staff to utilize the new code mentioned below in NCMS when capturing referrals from ESDC or CIC related to temporary foreign workers requiring priority 5 type investigations as described in ENF 7, section 5.7. This would include investigations such as, temporary foreign workers who have been refused extensions to their status in Canada, or who failed to comply with the conditions of their work permit, or have eluded examination or inquiry under the Immigration and Refugee Protection Act (IRPA), or provided false or misleading information with respect to a temporary foreign worker application in Canada.

Project Code: Temporary Foreign Worker (TFWP)

Description: Investigative activities related to the Temporary Foreign Worker Program

Should you have any concerns or require guidance, please send an e-mail to the Investigations Programs mailbox:

Version française *** The English version precedes ***

<u>Exécution de la loi dans les bureaux intérieurs – Nouveau code de projet dans le SNGC pour faire le suivi des cas de travailleurs étrangers temporaires</u>

Le Programme des travailleurs étrangers temporaires (PTET) permet aux employeurs canadiens d'embaucher des ressortissants étrangers de façon temporaire pour remédier à une main-d'œuvre à court terme et à une pénurie de main-d'œuvre qualifiée lorsque les citoyens ou résidents permanents canadiens ne sont pas disponibles. Emploi et Développement social Canada (EDSC) et Citoyenneté et Immigration Canada (CIC) procèdent actuellement à la mise en œuvre de réformes au PTET. La réorganisation du PTET comprend une restructuration générale ainsi que la modification de diverses procédures liées à une demande de permis de travail donnant lieu à des efforts accrus d'observation et d'exécution de la loi qui pourraient avoir des répercussions directes sur le Programme d'exécution de la loi dans les bureaux intérieurs de l'ASFC. Ceci comprend le pouvoir supplémentaire pour EDSC et CIC, conformément à l'article 209 du Règlement sur l'immigration et la protection des réfugiés, et de mener des visites des lieux sans mandat, de convaincre les employeurs de fournir des documents afin de vérifier leur conformité, d'imposer de nouvelles conditions aux employeurs et d'interdire de participation ceux qui ne respectent pas les règlements. Ces nouveaux pouvoirs ne donnent pas à l'ASFC des pouvoirs d'inspections supplémentaires. Pour obtenir de l'information sur la délégation de pouvoirs, veuillez continuer à consulter l'instrument de désignation et de délégation (IL 3). Pour obtenir de plus amples renseignements concernant les changements, veuillez consulter le PTET.

Afin de rendre compte avec exactitude les pressions opérationnelles que de tels amendements engendreront sur le Programme d'exécution de la loi dans les bureaux intérieurs, nous avons créé un nouveau code de projet dans le Système national de gestion des cas (SNGC). Nous demandons à tout le personnel régional de l'exécution de la loi dans les bureaux intérieurs de bien vouloir utiliser le nouveau code ci-dessous dans le SNGC pour la saisie de renvois provenant de l'EDSC ou à CIC relativement aux travailleurs étrangers temporaires qui nécessitent des enquêtes de priorité n° 5, tel qu'il est décrit dans ENF 7, section 5.7. Il s'agirait par exemple d'enquêtes de travailleurs étrangers temporaires à qui l'on a refusé une prolongation de leur statut au Canada ou qui ont omis de respecter les conditions de leur permis de travail ou qui se sont dérobés à un interrogatoire ou à une enquête en vertu de la *Loi sur l'immigration et la protection des réfugiés* (LIPR) ou qui ont fourni de l'information fausse ou trompeuse relativement à la demande d'un travailleur étranger temporaire au Canada.

Code de projet : Travailleurs étrangers tempora.

Description: Activités d'enquête liées au Programme de travailleurs étrangers temporaires

Si vous avez des préoccupations ou voulez obtenir des directives, veuillez envoyer un courriel à la boîte aux lettres électronique des Programmes des enquêtes à :

CBSA ENFORCEMENT MANUAL

Part 9

INVESTIGATIONS AND CRIMINAL PROCEEDINGS

Chapter 1

CBSA PROSECUTION POLICY

EN Part 9 Chapter 1

CBSA Prosecution Policy

PURPOSE AND SCOPE

- The purpose of this chapter is to provide a clear description of the role of Investigations in order to improve communication and the sharing of information with in CBSA, and to enhance the referrals to the Criminal Investigations program.
- 2. This policy applies to all CBSA personnel.

DEFINITIONS

3. Refer to Part 11 - Glossary.

AUTHORITIES

 Sections 11 to 13, 124 and 153 to 163 of the Customs Act.
 Sections 91,117-119, 122,124, 126-127, 129 and 13 of the Immigration and Refugee Protection Act.

BACKGROUND

There is a greater imperative to focus on complex or high-risk investigations which pose a threat to the health and safety of Canadians, the economy and the environment.

Complex investigations are defined as cases, under any legislation, that go beyond a single incident, often requiring follow-up investigation or use of specialized investigative techniques (i.e. search warrants, production orders, surveillance, etc.) to gather evidence to support the offence or previous offence(s). Complex cases may involve a corporate entity/individual with multiple incidents, transactions, or occurrences of fraud and may include a civil penalty in addition to criminal charges.

High-risk investigations are defined as cases involving goods or persons presenting at least one, but not limited to, the following aggravating factors: previous enforcement or conviction, concealment and evidence of illicit or clandestine means

CBSA Prosecution Policy

POLICY STATEMENT

- All referrals of suspected offences are encouraged. These referrals will be reviewed with the objective of prioritizing those cases which represent the most efficient use of investigative resources in support of National Priorities.
- Generally, regulatory enforcement measures are most appropriate for the majority of non-compliance encountered by the CBSA, particularly at the Port of Entry (POE).

POLICY GUIDELINES

- 8. Since not every incident of non-compliance will merit a criminal investigation, the following principles should be employed by operational staff in determining whether an incident should be referred for criminal investigative follow-up:
 - Can regulatory remedies be applied and are they sufficient to address this incident?
 - Did this incident or individual put the safety of Canadians at risk?
 - Has the individual been the subject of previous regulatory remedies/enforcement actions?
 - Is there demonstrated intent?
 - Were concealment methods used?
 - Were fraudulent documents used?
 - Is there documentation, verbal statements, officer notes, or any other evidence available to support the referral?

PROSECUTION PRINCIPLES

- The following principles must be considered by regional criminal investigations staff prior to initiating an investigation:
 - Does this offence merit a criminal investigation?
 - o Is the offence of a complex or high-risk nature?
 - o Is there a strong public interest in investigating this case?
 - o Is there an ongoing disregard for border legislation?
 - Is there any internal intelligence available or leading this investigation?
 - o Is this incident related to a larger pattern of criminality?
 - Does this offence have prosecution potential?

CBSA Prosecution Policy

- Is the initial referral and evidence collected (if any) supportive and sufficient?
- Are there any concerns about violations of the Canadian Charter of Rights and Freedoms in the areas of rights against unreasonable search and seizure, self-incrimination, or knowing the case against the accused will be fully disclosed before the Court?
- Is another law enforcement agency currently investigating this subject or matter?

In addition to these prosecution principles, there may be further considerations particular to the legislation under which the offence would be prosecuted, as described below.

IMMIGRATION CONSIDERATIONS

 Complex or high-risk investigations involving at least one aggravating factor should be considered for prosecution.

Considering the strongest deterrence measure, has removal been considered as an appropriate remedy?

Based on humanitarian and compassionate grounds, charges would rarely be appropriate in the following scenarios:

- Is the head of family smuggling his/her spouse and/or children in order to file a refugee claim?
- Has a refugee claim been made? (S. 133 Deferral)
- Has the 90-day limit to return refugee claimants (Safe Third Country
 Agreement with the USA) been considered? For instance, if prosecution
 causes the CBSA to miss this deadline, Canada is responsible to take the
 claim.
- Have United Nations High Commission for Refugees interests in monitoring the treatment of individuals been considered? Have individuals been afforded an opportunity to file a refugee claim?
- Pre-Removal Risk Assessment (PRRA): have we considered the potential implications of PRRA on the final outcome of the case?
- Is the individual a potential victim of human trafficking? If so, has a referral been made to Citizenship and Immigration Canada for a determination for a Temporary Resident Permit to be issued

CBSA Prosecution Policy

IMPORT AND EXPORT CONSIDERATIONS

11. Complex or high-risk investigations involving at least one aggravating factor should be considered for prosecution

Based upon a violation involving the movement of goods, charges are less likely to be pursued if:

- The civil monetary penalty is a sufficient deterrent, or
- · There is a lack of aggravating factors, or
- The incident is not linked to an ongoing fraud scheme or crime pattern, nationally or in the region.

National Priorities

12. The National Priorities for Criminal Investigations are stemming directly from the CBSA Integrated Intelligence and Enforcement Priorities. They are issued to direct program efforts into priority areas of non-compliance. The current priorities for the Immigration and Import/Export components of the program can be found in **Appendix A** attached to this Chapter. Although only the National Priorities are outlined in this document, the scope of the Criminal Investigations' mandate remains unchanged, including but not limited to cases relating to illegal importation of food, plant and animals.

Referrals for Criminal Investigations should continue for all offences related to border legislation.

Division of responsibility with the RCMP:

13. Incidents of fraud (with the exception of the smuggling of narcotics) should be discussed with Criminal Investigations to determine the appropriate agency to Investigate the matter. Agreements have been signed which lay out the areas of responsibility. (Refer to Written Collaborative Arrangements and Agreements on the CBSA Intranet)

ROLES AND RESPONSIBILITIES

Investigators

- 14. Investigators are responsible for:
 - a) acknowledging receipt of all referrals received;

EN Part 9 Chapter 1

CBSA Prosecution Policy

- b) investigating the alleged offences;
- c) consulting with the Department of Justice to determine whether a prosecution is warranted;
- d) advising the referring agency of the status of the investigation; and
- e) referring cases to other divisions and/or OGDs for follow-up action (e.g. collection of duties and taxes by Compliance Verification).

Border Services Officers (BSOs)

- 15. BSOs are responsible for:
 - a) referring all seizures that fall within the Investigations mandate to their regional Criminal Investigations Division or to the RIO as directed by regional policy; and
 - b) providing all pertinent details in referrals, whether verbal or written, including the reasons for believing that an offence has occurred and all relevant documentation pertaining to a suspected offence.

<u>Immigration Priorities:</u>

Title: Sharing information on criminal investigations into IRPA offences with Immigration, Refugees and Citizenship Canada

Date of Issue:

2016-12-19

Mode(s):

All

Target Audience:

Criminal Investigators

Area of Interest:

National

Purpose:

The purpose of this Bulletin is to provide Investigators with direction on the process for providing Immigration, Citizenship and Refugees Canada (IRCC) with specified information on individuals, including consultants and their clients, under investigation for *Immigration and Refugee Protection Act* (IRPA) offences. This Bulletin is not intended to impact ongoing communications with IRCC for the purpose of deconfliction.

Background:

In 2015-16, the Office of the Auditor General of Canada (OAG) conducted an *Audit of Detecting* and *Preventing Fraud in the Citizenship Program*. The OAG recommended that IRCC and the CBSA improve information sharing to ensure that individuals linked to IRPA fraud investigations receive additional review of their eligibility for citizenship. The CBSA agreed to implement an information sharing process that protects the integrity of CBSA criminal investigations while providing IRCC with the needed information.

Process:

The assistance of CBSA Criminal Investigations is essential in enabling IRCC to prevent persons who have submitted fraudulent immigration and citizenship applications from obtaining permanent resident status and Canadian citizenship.

IRCC requires specific identity information on the subjects of CBSA criminal investigations into IRPA offences who may be implicated in fraud affecting permanent resident status or citizenship eligibility, and in particular, the names of clients of immigration consultants who are under investigation.

IRCC intends to use the information provided to scrutinize any applications in process by these individuals in order to detect fraudulent applications and prevent applicants who have misrepresented or concealed material facts from obtaining the status sought.

IRCC Investigations and Exceptional Cases Division (IECD), Case Management Branch, Operations Sector will create a GCMS Information Alert on the subject of the investigation and consultants' clients whose information is forwarded,

This alert will indicate that there are program integrity concerns, direct officers encountering the subject(s) to carefully review any applications in process, and to contact IECD if they have questions.

IECD will not disclose the existence of the investigation or any other information prior to the completion of the investigation. If IRCC officers contact IECD for more information, they will be told only to review the case more carefully.

To avoid compromising a criminal investigation, the CBSA and IRCC agree that the needed identity information will be provided to IRCC only after search warrants have been executed. At that point, disclosure to IRCC of the suspect's identity and the offence(s) being investigated (including, in consultant investigations, the names of clients) is less likely to harm the investigation.

Actions required by Investigators:

In Category 1 and 2 investigations, post-warrant execution, the Investigator will initiate contact with the Investigations and Exceptional Cases Division (IECD), Case Management Branch, Operations Sector, IRCC via an email to the following generic e-mail address:

The email will advise that the CBSA has information on individuals involved or associated to a CBSA criminal investigation into an IRPA offence.

IECD will respond by providing the name of a contact officer to whom encrypted emails can be sent.

The Investigator will then send an encrypted email to the IECD contact officer with the following information:

- Name of subject of investigation;
- Name of clients if subject of investigation is a consultant, when that information is discovered during the evaluation of the seized evidence;
- GCMS UCI or, if unavailable, date of birth;
- Business name of consultant, if applicable;
- Addresses of the subject of the investigation and the clients, if any;
- If addresses are unavailable, other contact information, if available;
- Alleged offence(s); and
- The Investigator's contact information.

This information provided to IRCC must be within the scope of a lawfully executed search warrant.

When providing the above information to IRCC, the Investigator will caveat the sharing with the following statement:

This information, obtained by the CBSA through a criminal investigation, is provided to IRCC on a confidential basis solely for the purpose of informing IRCC that increased scrutiny may be required on applications by the identified individuals, and with the understanding IRCC will make any program eligibility decisions independently from any CBSA criminal investigations and draw its own conclusions based on information obtained through IRCC regulatory authorities.

With respect to consultants' clients, Investigators are not expected to do extra work to uncover the information in question but shall provide it when it is discovered during regular investigative activity.

Investigators shall update IECD when there have been changes in the above noted information.

When charges have been laid, the Investigator shall provide IECD with information on the offence particulars.

The Investigator shall notify the IRCC contact when the case is concluded and the reason why: decision not to lay charges; charges withdrawn, acquittal, or conviction.

02 - 2009: Misrepresentation - IRPA 127(a) Versus 127(b)

March 16, 2009

The purpose of this memo is to provide clarification and guidance to Investigators in determining the differences between A127(a) and A127(b) of the *Immigration and Refuge Protection Act* (IRPA) and when it would be appropriate to apply either section. It is important to note that for the purposes this section, the term "immigration to Canada" refers to the movement of persons for both a temporary and/or permanent purpose.

For reference, A127 states:

127. No person shall knowingly

- (a) directly or indirectly misrepresent or withhold material facts relating to a relevant matter that induces or could induce an error in the administration of this Act;
- (b) communicate, directly or indirectly, by any means, false or misleading information or declarations with intent to induce or deter immigration to Canada; or
- (c) refuse to be sworn or to affirm or declare, as the case may be, or to answer a question put to the person at an examination or at a proceeding held under this Act.

An analysis of this section and recent case law indicates s.127(a) would apply predominantly to situations of misrepresentation or omission in the context of immigration applications, visa renewals and other declarations made to CIC and/or CBSA officials. These are situations where due to the information provided or withheld, the end result is a detriment to the Government's decision making process that could lead to an error in the administration of the IRPA.

In contrast, s.127(b) would apply most frequently in situations whereby a Foreign National (FN) has been induced to apply to come to Canada based on what is clearly false information. An example of this situation could involve an employer providing a fraudulent job offer or false terms of employment, etc. In this type of case, there appears to be no requirement that the representations were made to CIC and/or CBSA officials. These are situations where the end result is a detriment to the FN's decision making process. In such cases, it may be necessary to demonstrate that the FN would not have made this decision had they been provided accurate information regarding what awaits them in Canada.

It is important to note that these provisions share the standard of committing the act or omission "knowingly", although there is a slightly higher standard under s. 127(b) of acting with intent. This is undoubtedly to distinguish statements made generally from statements that are manufactured with the specific intent to induce or deter immigration.

Should you have any questions or concerns, please do not hesitate to contact Brad Young, Programs Section, Criminal Investigations Division, Enforcement Branch.
